Sir:

PRELIMINARY AMENDMENT

Please amend the above-identified application as follows:

IN THE CLAIMS

Please cancel claims 1-3 and add new claims 4-6 as follows:

5/5 BY
--4. In a video game system having a game program executing processing system for executing said video game program and at least one player controller operable by a player to generate video game control signals, a player controller and a portable storage device for controlling storing said video game program for controlling the operation of said video game system; a method for operating said video game system comprising the steps:

sending a data request command to processing circuitry in said player controller to initiate the transfer of data from said player controller to said game program executing processing system;
